

10-5-76

old cook
and
an assistance.

The information about the dhobi is the brightest spot in your letter. It is like Noldes paintings. Don't worry about the camp. We pledge to do our best to do etc. You can make us repeat this scouts' oath 20 times a day, we won't mind. After all, the every-thing is not in your hand! What will be will be. Better add an astrologer in the list besides cook, assistance and dhobi. We promise not to create any trouble, we will be like Meeru bai singing Krishna's praise all the time. *बेता बिठलाये उत ही तू* etc.

Dear Vivian (Madras)

Thank you very much for the following:-

1. Writing us a letter
2. informing us about the dhobi
3. informing us about the

We hope to reach ^{16th} on 17th or 18th. Boban's school closes by 14th or 15th. Patrick's will be there earlier. Boban got her eye glasses, don't laugh at her. Hope there ~~are~~ no mosquitos in the camp. We will bring slides and books (Agatha Christie) & v. imp. for camps and no art books and blankets and towels. Don't bother about children - what the mothers are for? We will try to bring the projector - something is out of order in it - most probably the bulb.

Don't worry about anything. After all we are two court jesters coming - the only thing I am worried about is my work - whether I will be able to paint. Any way, I will bring papers so that if I don't paint, I can make drawings. I suppose I will be forgiven for this. *Love*
We will inform when we start from *16th*
